

## Application to the B.S./M.S. Program in Computer Science

Name \_\_\_\_\_

Email \_\_\_\_\_

SOLAR ID number \_\_\_\_\_ Expected bachelor's graduation date \_\_\_\_\_

Computer science majors may apply for admission to a special program that leads to a Bachelor of Science degree at the end of the fourth year and a Master of Science degree at the end of the fifth year. Students must satisfy the respective requirements of both degrees, but the main advantage of the program is that six credits may be simultaneously applied to both the undergraduate and graduate requirements.

Students usually apply to the program in their junior year. Applications are reviewed, and must be approved, by the Computer Science Graduate Admissions Committee. The application process is competitive. To be considered applicants must have a GPA of 3.25 or higher, both overall and in major courses, and completed at least three upper-division computer science courses at Stony Brook. Applications must also include (i) a statement of purpose, (ii) a one or two-page resume, (iii) two or three recommendation letters, at least one from a computer science faculty member, and (iv) a transcript.

**List** all the computer science courses you have completed:

Course number	Course title	Semester	Grade

**Compute** the GPA of your CSE courses: \_\_\_\_\_

**Attach** an official copy of your Stony Brook academic record. For Spring admission, grades for preceding Fall should be included, and for Fall admission, grades for preceding Spring included.

**Enclose** your statement of purpose, resume, and recommendation letters.

**Submit** your application to the Computer Science Undergraduate Secretary.
